

OXY4 Dive

Ultimate OffShore Solutions & Training Center

This course is for delegates already working in the ROV industry who are getting close to wanting to offer supervisory skills. It covers IMCA recommendations within 2 modules including training on R01 competences.

The Course content is in line with guidance documents IMCA C011 and IMCA C005 – R01 C011 Module

IMCA recommends in their document C011 a basic syllabus to cover any supervisors position not just ROV. We expand all topics within that recommended syllabus to include practical exercises.

We instruct you how to supervise and Lead your teams. We get down to the nuts and bolts of how to become a good, efficient and safe supervisor. You will be expected to participate in practical supervisor exercises and prove you can supervise.

R01 Module

IMCA lay down the recommended competences for the position R01 of ROV Supervisor. This module covers and goes into these competences in detail.

You will learn and then prove your knowledge and ability where possible on all R01 competences. You will be expected to supervise a project beginning with a kick off meeting, planning, risk assessment, delegating tasks, task completion, assessment, reporting and more.

Learning Today Leading Tomorrow

Candidate Requirements

Any personnel who have reached or are actively working toward the role of Supervisor are appropriate for this course. It is an excellent opportunity for them to enhance their skills and receive formal certification.

The course is suitable for the following personnel:

- ROV Supervisors
- ROV Senior Pilot Technicians/Submersible Engineers
- Senior grade Survey disciplines
- Party Chiefs
- Dive Supervisors
- Senior Dive Technicians
- Equipment Supervisors
- Senior Technicians

Course Modules

- ✓ Managing Yourself
- ✓ Communication
- ✓ Training and Development
- ✓ Managing and Supervising Your Team
- ✓ Delegation
- ✓ Safety leadership and management
- ✓ Cultural Differences
- ✓ Managing, Assessing and Monitoring Performance
- ✓ Communication

COURSE OVERVIEW

Designed as an experiential training program, the course will assess candidates' skill at maintaining and developing a small team. It examines how they perform as a leader, drives them to draw on their skills as a Supervisor, and encourages them to reflect on situations which require 'leadership'.

The course encourages candidates to work as a group and participate in a variety of informal leadership activities.
